EDUCATION

Bachelor of Science in Software| 2022-2026
Foundation *University, Rawal Pindi*

- Relevant Coursework: Programming Foundamentals, OOP, DSA, Computer Networks, Operating System, Database.
- GPA: 3.5

RESEARCH EXPERIENCE

Student Developer & Research Intern | 2024–2025
B2 Info Tech, Software Development Department

- *Collaborated with a development team to build scalable full-stack applications using the MERN stack.*
- Conducted performance testing and implemented code optimization techniques for frontend and backend components.
- Researched real-time communication, authentication, and encryption methods for secure web applications.

PROJECTS

Meet Point – Video Conferencing Platform
Software Construction Development *Course, FifthSemester of 2024*

- Designed and developed a real-time video conferencing app with features like screen sharing, chat, and meeting scheduling using WebRTC, React, Node.js, and MongoDB.
- Focused on creating a responsive and secure UI with performance monitoring and multi-user support.

SKILLS

Frontend Development HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS, Vite
Backend Development Node.js, Express.js
Database Management MongoDB, MS SQL
Programming Languages Java, C++
Tools & Technologies Redux, RESTful APIs, WebRTC, Socket.io, Git, Mongoose

NOTABLE AWARDS

- Certificate of Appreciation, High Tech University
- Certificate of Participation, NUML University Coding Competition
- Internship Completion with Distinction, B2 Info Tech, 2024
